OBJECTIVE

Passionate and motivated Computer Science student with a strong foundation in Full Stack Development and AI/Machine Learning. Proficient in the MERN stack, with skills in Data Engineering and Generative AI. Seeking to apply technical expertise to drive innovation and growth.

EDUCATION

Bachelor of Computer Science, Sandip University Expected 2026

Diploma in Computer Science, KK Wagh Polytechnic College,MSBTE 2021 - 2023
Grade 73.6

12th Standard, Arambha Mahavidyalaya,State Board 2020 - 2021
Grade 75.67

SKILLS

Programming Languages	Python, JavaScript, Java, C, C++
Core Computer Science	Compiler Design, Object-Oriented Programming (OOP), Data Structures
AI/Machine Learning	Generative AI, RAG, Pandas, NumPy, Beautiful Soup
Web Development	HTML, CSS, JavaScript, Node.js, React, MERN Stack, Web Scraping
Databases	MySQL, MongoDB
Version Control	Git, GitHub, Azure
Technical Skills	Full Stack Development, Data Engineering, Data Analysis, AI/ML Engineering

EXPERIENCE

Python Intern Dec 2025- Feb 2026
ZobLik International. *Virtual,Bangalore*

- Developed robust web scrapers using BeautifulSoup and Scrapy to extract 10,000+ data points.
- Automated data extraction workflows, reducing manual processing time by **20%**
- Engineered data cleaning pipelines using Pandas to transform unstructured data for AI training.

Full Stack Developer Nov 2024- Jan 2025
Codevocado Pvt.Ltd. *Virtual,Uttar Pradesh*

- Architected and developed a full-stack web application using React and Node.js to streamline data entry, reducing manual processing time by **20%**
- Engineered a secure, responsive login page with robust user authentication, improving the user experience.
- Integrated a MongoDB database to efficiently store and manage user data, enabling dynamic content delivery and improving application performance.

Web Developer Jan 2023 - March 2023
Npit Solutions Pvt.Ltd. *Nashik, Maharashtra*

- Developed a portfolio of responsive websites, achieving a **20%** boost in user engagement through user design.
- Engineered front-end experiences by leveraging HTML, CSS, and JavaScript, which improved page load speed by **15%** and increased overall site traffic.
- Conducted rigorous debugging to reduce bugs by **30%** and ensured **100%** cross-browser compatibility.

PROJECTS

Secure Document-Chat RAG Application :

Developed a secure Retrieval-Augmented Generation (**RAG**) application enabling users to chat with their documents.

- Engineered a robust backend using **Langchain** and **OpenAI** to generate contextually relevant responses.
- Implemented the **Qdrant** vector database for efficient document indexing and retrieval.
- Designed a user-friendly interface with **Gradio**, prioritizing data privacy and security.

Cloud Workflow Scheduling with Deadlines and Time Slots :

Designed and implemented a system for dynamic task allocation, ensuring optimal use of **cloud resources** within a constrained time-slot framework.

- Implemented features for handling complex **task dependencies** and ensuring efficient resource utilization.
- Engineered features for prioritizing tasks, handling dependencies, and managing deadlines efficiently.

PartyHub Event Venue Management System :

- Developed a full-stack booking platform using **Django** and **Next.js** to manage 6 tiered service packages with dynamic add-ons and photography modules.
- Integrated **Razorpay API** for secure payment processing and implemented a custom logic for automated slot blocking and availability management.
- Implemented real-time **SMS notifications** and automated reminders (1-hour pre-event) to improve customer attendance and operational efficiency.

CERTIFICATIONS

- Google Arcade Facilitator Program
- Certified With Google Data Analytics Course
- Certified With Web Developer At Npit Solutions
- Certified With It MERN Stack Developer At CDevocado Pvt Ltd.

EXTRA-CURRICULAR ACTIVITIES

- Attend webinars and workshops to stay updated with the latest trends in AI and cloud computing
- Actively learning and exploring topics such as generative AI, in free time
- Participating in coding challenges and hackathons to improve practical skills
