PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science graduate with hands-on experience building full-stack web applications using React, FastAPI, and Node.js. Comfortable working from requirements to delivery independently – UI design, REST API backends, and database integration. Personal project experience with RAG systems and OpenAI API integration using LangChain.

EDUCATION

Bachelor of Engineering, Computer Science Sandip University, Nashik	Aug 2023 – May 2026 CGPA: 8.3
Diploma in Computer Science KK Wagh Polytechnic College, MSBTE	2021 – 2023 73.6%
12th Standard (HSC) Arambha Mahavidyalaya, Maharashtra State Board	2020 – 2021 75.67%

TECHNICAL SKILLS

AI / Projects	OpenAI API (GPT-4o), LangChain, RAG, Embeddings, Pandas, NumPy
Backend	Python, FastAPI, Node.js, Django, REST APIs, JavaScript, Java
Frontend	React, Next.js, HTML, CSS
Databases	PostgreSQL, MongoDB, MySQL, Redis, Qdrant (Vector DB)
Tools	Git, GitHub, Docker, Celery, WebSockets

EXPERIENCE

AI/ML Engineer Intern Atronz Innovations	Dec 2025 – May 2026 Remote, Bengaluru
- Built and delivered 5 full-stack web applications using React and FastAPI based on client requirements, working directly with the founding team. - Handled end-to-end development for each application – UI design, REST API backend, and database integration – taking features from requirement to deployment independently. - Integrated OpenAI API into web applications using prompt engineering for structured JSON outputs; parsed and rendered LLM responses within FastAPI endpoints.	
Full Stack Developer Intern Codevocado Pvt. Ltd.	Nov 2024 – Jan 2025 Remote, Uttar Pradesh (Short-term contract)
- Built a data-entry workflow application using React and Node.js, cutting manual processing time by 30%. - Implemented JWT-based authentication and used MongoDB for dynamic multi-user data storage.	
Web Developer Intern Npit Solutions Pvt. Ltd.	Jan 2023 – Mar 2023 Nashik, Maharashtra
- Developed 5 responsive client websites using HTML, CSS, and JavaScript, improving user engagement by 20%. - Reduced page load time by 15% and bug count by 30% through optimisation and cross-browser testing.	

PROJECTS

Secure Document-Chat RAG Application	github.com/abhijitprakashborade/RAG-App
- Built a RAG pipeline for document Q&A using LangChain and OpenAI API with source-grounded responses. - Integrated Qdrant vector database for semantic search and fast retrieval across large document sets. - Designed a privacy-first local processing flow using Gradio – no user data sent to external servers.	
PartyHall – Party Hall SaaS Platform	github.com/abhijitprakashborade/PartyHall
- Built a multi-role venue booking SaaS (Django, Next.js 14, PostgreSQL+PostGIS) with pincode-based geolocation via MapLibre GL JS; prevented double-bookings with real-time slot updates via Django Channels WebSockets. - Automated tasks with Celery + Redis (slot cleanup, email reminders, 3-day grace period); integrated Razor-pay/Cashfree with webhooks and JWTs in HttpOnly cookies.	

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** - Oracle University (2025)
- Google Data Analytics Certificate** - Coursera (2024)
